“... acted with professionalism, but also with great compassion.... Gave me a quiet sense of optimism without misleading me or making any false promises... The compensation ... is a life-changing sum of money... outstanding professionalism...”

“I can't thank you enough for battling so doughtily for me. Your excellent advice and encouragement since the accident has really been of the most tremendous help and has sustained me when I felt very low and unhappy. If it had not been for your sympathetic understanding I would not have proceeded and would have been left feeling very helpless and a sort of victim”.

“Thank you for your guidance.....You have been a tremendous support and both X and I have valued your professionalism and knowledge. I certainly couldn't have continued the action without your help, and we are both extremely grateful to you”.

“Right from the start I remember you saying to me that I had to be patient as we cannot rush things. I guess our patience has paid off. I want you to know that all along I had confidence in your ability to bring this case to a successful end and would recommend you or any of your colleagues in Pictons to act on behalf of anybody who finds themselves in a predicament similar to mine”.
